XPOWER

Embark on a transformative journey across the island. Here at MG Motor, we are committed to leading the electrification of our local roads with unwavering dedication, and a promise not to compromise on vehicle performance. With the introduction of the all-new MG4 Electric Vehicle, we set a new benchmark for zero-emissions driving, empowering Mauritians to drive towards a brighter tomorrow.

Take Charge.

Our dedication to the electric revolution runs within our vision. We believe that electric vehicles should not only be eco-conscious but offer the exhilarating feeling of performance with every drive. Here at MG Motor, our company ethos, **Take Charge**, epitomises our strong dedication of the company and empowering our drivers as we lead the charge in the movement towards our electrification vision. As our journey unravels, we are committed to inclusivity and allowing the opportunity for all Mauritians to take charge of their own electric milestones.

The MG4 XPOWER not only embodies this philosophy, it builds on it, and learns from MG's rich past of performance vehicles. Propelling electric vehicles into the future, the MG4 XPOWER blends cutting edge technology with an even more powerful electric drivetrain, delivering an unprecedented driving experience.

Beyond its impressive performance, the MG4 XPOWER stands as a zero-emissions vehicle, with future-forward features that not only allow for an eco-drive, but in turn improve the way you take the wheel.

Together, let's evaluate what 'electric power' truly means. Become a part of the MG community as we pave the way for a cleaner, brighter, and more enjoyable future on Mauritian roads. The electrification movement has begun, and with the XPOWER, it only gets better.

In Perfect Form.

Merging European artistry with engineering precision, our designers and engineers have pushed the boundaries of innovation, delivering a vehicle that redefines driving with exceptional style. Its exterior exudes modernity, featuring hi-tech LED headlights and indicator lights, paired with an aerodynamic U-shaped bonnet that adds a touch of refinement to the powerful front face. The Active Grille System[^] regulating airflow into the front compartment to help you achieve optimal battery range.

The A-Pillar is moved forward to maximise the front of the cockpit, whilst bringing a smoother roofline, and the Side Protection Panel has a curved design that outlines the agile side profile. A low stance combined with world class design brings a 2705mm long wheelbase, short front, and rear overhang.

The MG4 XPOWER commands attention on the road, complemented by a two-tone black roof and Twin Aero Rear Spoiler that gracefully curve towards the rear, epitomising aerodynamic power. The multi-layered and intricately detailed rear-end design with highmounted brake lights, a double-width rear spoiler, and a rear taillight cluster adds a touch of sophistication from every angle. The structured three-dimensional shape, subtly combined with the MG logo creates a unique and innovative profile.

Go Forward.

Designed for your lifestyle on a new dedicated EV platform, the MG4 XPOWER redefines space being MG's first vehicle built on the Modular Scalable Platform (MSP), allowing room for more.

The interior design echoes the exterior, equipped with gun metal grey painted accessories and trim. Impeccable craftsmanship and attention to detail ensures a minimalistic yet effective interior.

Sink into premium Alcantara seating, that's not only wear & scratch resistant, but also made of eco-friendly materials. It's exceptional comfort and durability ensures that every drive is one with both adventure and relaxation. Enjoy luxurious 3-level heating temperature adjustment[^] while reveling in a serene cabin ambiance that's designed to enhance every moment of your journey. And with 1,117# litres of storage when the back seats are folded, there's plenty of space for all your adventures.

Prepare to be immersed in a world of advanced connectivity and intelligent convenience. The cabin of the XPOWER exudes innovation and functionality, incorporating a minimalist and user-friendly approach to integrated design features that enhances the significant sense of spaciousness in a hatchback.

The floating design optimises the front cabin space, while the integrated functions area and hollowed console module keep practical drive features in direct reach, housing the Wireless Charger[^], Hi-Tech Shift Selector, and Electric Parking Brake.

Across the dashboard, the integrated design seamlessly blends advanced technology of the 10.25-inch infotainment system and 7" Instrument Cluster, further contributing to the feeling of ample room within. The unique intelligent steering wheel design has added heating^{^^} for further comfort.

Performance Retold.

At the core of MG4 XPOWER is its exceptional 64kW All-Wheel Drive (AWD) electric drivetrain, generating seamless power conversion through the Intelligent Motor Control Unit (IMCU) and offering an impressive 400km range on a single charge. XPOWER is equipped with a robust dual motor, offering up to 320kW~ of power via front (150kW) and rear (170kW) electric motors. This pushes torque to a maximum of 600Nm~, resulting in high performance acceleration. Advanced MG Magic Cube battery with CATL® cells guarantees efficient and safe energy storage and faster charging, ensuring daily convenience.

The MG4 XPOWER handles exceptionally well, with MacPherson Strut Suspension at the front and a sophisticated Five-Multi-Link Rear Suspension at the back. 50:50 weight distribution and a lower centre of gravity contribute to an agile and exciting drive. This is now coupled with an all-new Dynamic Cornering system, featuring an electronic differential which allows torque vectoring between all four wheels. Steering has also been overhauled with damper tuning and stiffer anti-roll bars, ensuring precision and responsiveness on any corner.

XPOWER brings with it not only an excellent ride, but excellent components that build on the characteristics of the acclaimed MG4. Upgraded 345mm Front & 340mm Rear ventilated discs + Continental® brake calipers ensures when you're done climbing to speed, you brake as safely as possible. Aerodynamic 18" alloy wheel covers and Bridgestone® Turanza tyres also come as standard, generating maximum traction and outstanding composure in a wide range of driving conditions.

Celebrating MG's heritage, The XPOWER comes with a multitude of high caliber features to further enhance your daily drive. Launch Control is now here, with the ability to propel you to a rapid 0-100km/h time as quickly as 3.8 seconds. XPOWER also features a dedicated Track Mode function. Here you can view lap times, read diagnostic data on speed, distance, throttle performance and even lateral acceleration. Discover a new dimension of driving pleasure with the XPOWER's innovative one-pedal driving system. Seamlessly accelerate, decelerate, and effortlessly stop by merely modulating the accelerator pedal. This regenerative braking marvel not only prolongs the life of your traditional brakes but also recharges the battery, enhancing overall efficiency. Safety and stability are our top priorities with the XPOWER, featuring the comprehensive Electronic Stability Program (ESP) and a precision-engineered Dual Pinion Electric Power Steering (DP-EPS). These technologies ensure a secure and confident driving experience. Tailor your driving experience with the familiar five Driving Modes: Eco, Normal, Sport, Snow, and Custom. If you desire a relaxed and effective trip or a thrilling, adrenaline-fueled escapade, the MG4 XPOWER is the vehicle that's got you covered.

Exceptional Service.

A Commitment to Accessibility and Quality

At MG, we prioritise accessibility and provide top quality service. Our dedicated network of dealers are committed to ensuring an exceptional experience for every customer. From the moment you step into an MG dealership, you'll be greeted by a team of experts who understand your desire for style and performance. We are here to ensure that your journey with the MG4 is truly extraordinary.

5 years peace of mind.

Your new MG comes complete with a comprehensive manufacture and battery warranty. MG's industry-leading engineering plus rigorous research and development programs also ensure a positive ownership experience. Our warranty coverage is backed by our nationwide dealer network.

Electric Power Reinforced.

Fully electric and built on our expertise in electric vehicle manufacturing and battery technology, the MG4 XPOWER embodies a perfect fusion of stunning design and exceptional technology.

Embracing the innovative "One-Pack" battery design, the MG4 XPOWER Electric features a pioneering horizontal cell structure, resulting in an ultra-thin 110mm power battery that optimizes cabin space.

With an advanced Battery Management System (BMS), the battery efficiently monitors and adjusts charging parameters in real-time, ensuring rapid and stable charging with industry-leading speed. With both high-power AC and DC charging capabilities, the MG4 XPOWER Electric guarantees an efficient and reliable charging experience, whether it's at home or on the go.

Use your MG4 XPOWER as a portable battery pack with the Vehicle to Load (V2L) function, straight from the charge port. Conveniently power your electronics on the go and see real time display of discharge information across the digital screen.

Advanced Safety, Enhanced Driving.

At MG, innovation runs deep.

So, when it comes to safety, we've gone above and beyond in the all new MG4 Electric by incorporating additional new safety technology into the MG Pilot Driver Safety Technology suite.

With 9 Active Driver Safety features in the XPOWER, MG Pilot is constantly sensing your surroundings, on the lookout for unseen.

hazards. With the ability to react autonomously in situations where driver safety is at risk, take comfort that you and your passengers are backed by a new level in safety intelligence.

The Lane Departure Warning system uses a front smart camera to detect lane markings, road edges, and nearby vehicles, intervening to keep the vehicle in its lane and enhance driving safety with warnings and steering correction.

Forward Collision warning detects vehicles, bicycles, and pedestrians in complex urban conditions, paired with

Automatic Emergency Braking to prevent collisions with alerts and automatic braking.

Embrace the open road with Adaptive Cruise Control, and stay informed with the 7" Instrument Cluster. Your safety and driving pleasure are our top priorities.

INTELLIGENT SPEED LIMIT ASSIST

Actively detects speed limit signs and alerts you to your current vehicle speed.

360 DEGREE CAMERA

Provides you with a 360° field of view around the vehicle when reversing. *Available on Essence 64, Long Range 77, and XPOWER."

LANE ASSIST SYSTEM

Alerts the driver when the MG4 is getting too close to the lane edge.

TRAFFIC JAM ASSIST

Detects heavy traffic and automatically follows the vehicle in front, controlling acceleration, braking and steering within the lane.

ADAPTIVE CRUISE CONTROL

Detects the front vehicle position and keeps a safe distance between your MG4 and the car in front.

DOOR OPENING WARNING

Warns you of danger when opening vehicle doors.

REAR CROSS TRAFFIC ALERT

Alerts you of approaching vehicles and pedestrians when reversing out of parking spaces.

ACTIVE EMERGENCY BRAKING

Senses impending collisions and applies the brakes to help avoid or lessen impact.

BLIND SPOT DETECTION

Registers objects in hard-to-see areas to help you change lanes safely.

Formulate Yours.

- 64kWh Dual Motor
- Range of up to 400km (WLTP) ‡
- 0~100km/h in 3.8s
- AllWheel Drive
- Launch Control
- One Pedal Driving
- Track Mode App
- Exclusive X Power Exterior trim kit
- Flowing Two Tone Roof
- 18" 5 Spoke Alloy Wheels with Bridgestone® Turanza tyres
- Continental® brake callipers and discs
- XPOWER Branded Metallic Calliper Covers
- Available in Exclusive Hunter Green Satin colour
- PU Leather & Alcantara Seat with Orange stitched seating
- XPOWER Sport Pedals
- 10.25 inch Touch Screen with Android Auto & Apple CarPlay
- 7 inch Digital Cluster
- Wireless Smart Phone Charging 15W
- 360° Camera
- MG Pilot 14 safety features
- Auto Start/Stop & Keyless Entry
- LED DRL, Headlights & Taillights
- Electronic Parking Brake
- Voice Control
- 6 Speaker Audio
- Steering Wheel Heating
- Driver's 6 way Electrically Adjustable Seat
- Active Intake Grille Shutter
- Vehicle to Load Functionality
- 500KG Towing Capability
